A Celebration of Surplus

While the Sukkah provides space for friends and family to gather and celebrate the luxury of the harvest, it simultaneously represents the time spent in the desert with barely enough resources. The reminder of the temporary nature of luxury provides more reason to celebrate and appreciate the times of abundance. The Sukkah design embraces this idea by adjusting the amount of space provided. This is achieved by drawing parallels in both form and symbolism between the Sukkah and the cornucopia, a notorious symbol for harvest and abundance.

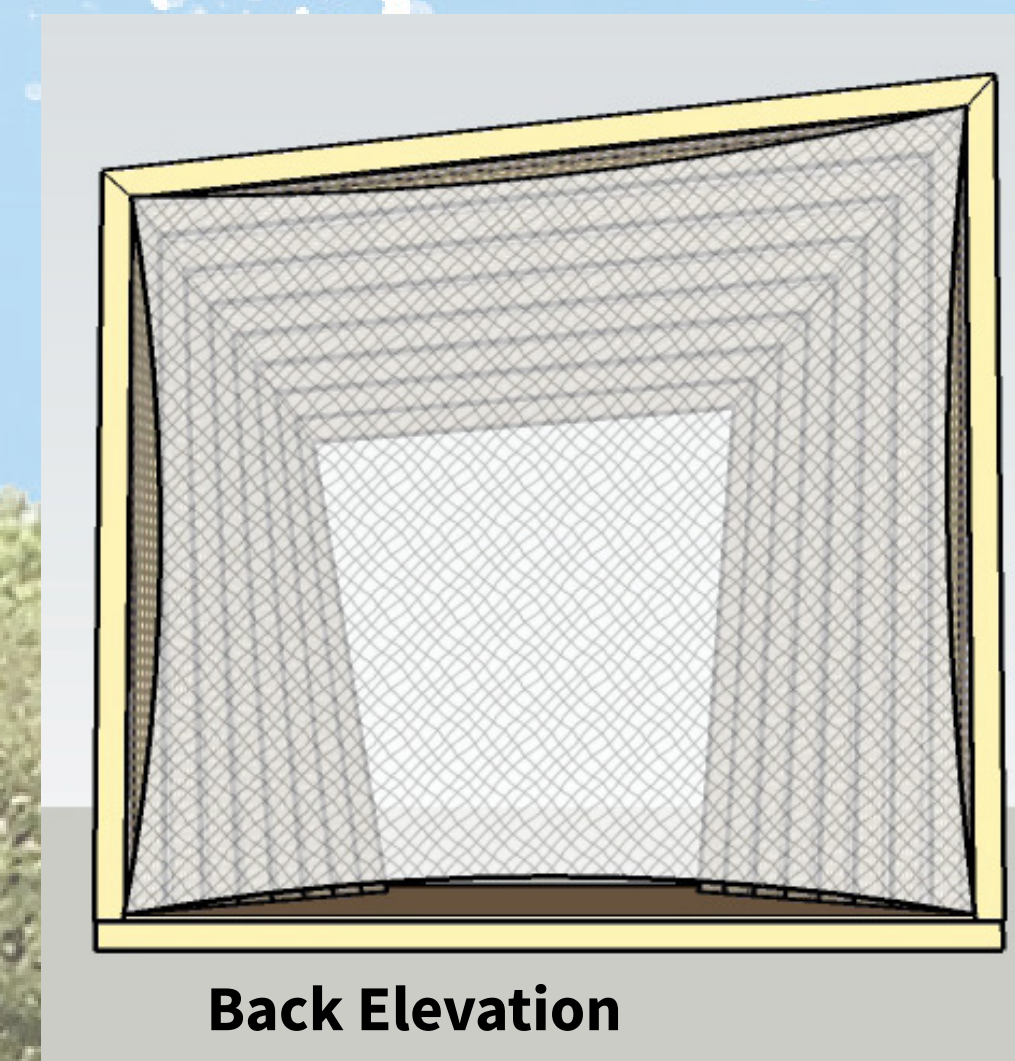

The lower, narrower entrance of the Sukkah feels tighter and cramped, representing the scarcity of goods and resources. As visitors continue through the Sukkah towards the back, they experience an abundance of space for gathering and celebration.
